

BROADWAY DREAMS AT EUROPA-PARK

The stage is yours!

Have you been dreaming your entire life of working with teachers direct from the Broadway stage? Don't miss this chance!

In association with Europa-Park and Europa-Park Talent Academy, Broadway Dreams presents its signature Weeklong Intensive at Europe's largest theme park and resort. This intensive is the trademark Broadway Dreams initiative — a program of strenuous professional theatre training. Throughout the week, the international student pool employs the classroom to prepare for two formal showcases in which they perform alongside celebrated talents for an audience of industry professionals and friends and family.

In addition to technical training in acting, vocal performance, and dance from Broadway's finest, students are empowered with leadership and teamwork building skills that are applicable to a life in and outside of the performing arts. And the students' respective confidence levels are enhanced by a strong sense of community — the impact of which extends far beyond the week.
